Dear Mx. Blank,

I noticed on Indeed that you have an opening for a small 3D animation role. It seems that I would be a good fit for it. I am creative, reliable, and good at following instructions.

I have two years of experience in 3D animation at the Center for Technology, Essex. I have participated in the SkillsUSA animation competition at the state level.

In addition to that, I also have a variety of related skills, such as 3D modeling, VFX work, Video Editing and Audio Design. This would allow me to potentially help out the team in other aspects of the production if needed.

Thank you for your time. Please accept these attached links to my resume and my example portfolio pieces. I look forward to arranging an interview; you can reach me at plague@vt.ewsd.org

Sincerely,

Philip Lague
